

5 Ways Nurses Can Improve Patient Care

You became a nurse for many reasons, but for most people, this career move was made with one main point in mind: **you want to help people.**

But at the end of a long shift, as you're peeling yourself out of your scrubs in anticipation of a soothing, stress-relieving bath, you find you're asking yourself, "**How** could I have done better?"

What could you have done differently today that would have helped that one cardiac patient as he prepares to go home tomorrow? Could you have done anything else to help your pediatric patient and her worried parents?

Like most good nurses, you want to do better. You want to **be** better.

[Learn 5 simple techniques to improve your patient care.](#)
