CynaMed Launches New Website With Nursing Resource Center

After transforming into a Digital Organization, the Pittsburgh-based healthcare staffing agency CynaMed has decided to launch a new website for its organization. This website includes a Nursing Resource Center that will best suit prospective employees. All prospective employees and healthcare providers will have the opportunity to use the Nursing Resource Center, giving them the ability to obtain training, education, and nursing support on-site.

The agency is creating the Nursing Resource Center in hopes of helping people interested in working as a healthcare provider. Adding the new Nursing Resource Center gives prospective employees the option of; obtaining training, education, and nursing support to provide essential services as a qualified Certified Nursing Assistant, Certified Medical Technician, Registered Nurse, or Licensed Practical Nurse.

CynaMed's Nursing Resource Center

This newly developed Nursing Resource Center allows prospective employees to obtain any qualifications needed to pursue a career in the essential services as a healthcare provider.

The [Nursing Resource Center](#) can be found directly on the website at www.cynamed.com, under the "Resources" quick link located at the top of the website as part of CynaMed's digital presence.

The remote presence of the Nursing Resource Center shows CynaMed's commitment to providing necessary qualifications, education, and support to work as a professional healthcare provider through their agency. CynaMed's support staff is available to prospective employees 24 hours a day, 7 days a week.
